In addition to Photoshop, you can download _Photoshop Elements_ to the same effect. It is a graphical tool for image editing and it is good for creative pros. Another popular editor is Corel Photo-Paint. Creating Your Masterpiece The first step to creating your original artwork is to create a blank canvas on your monitor, and before that, you need to open an existing image in Photoshop. Before you import any image, be sure to open your image in Photoshop using a preferred method (see Chapter 1). Then be sure to save the image in Photoshop as a Photoshop (.psd) file. You can now import a photo into Photoshop. After importing an image, you need to do two things. First, change the preset (a setting that tells Photoshop the way the image is intended to look when it's printed). Set the Mode to Grayscale, as shown in Figure 4-1. (If you want to learn more about the various image-editing modes in Photoshop, check out Chapter 1.) The second thing you should do is make sure that your settings are fine-tuned. When you import a new image into Photoshop, the default setting is Print for best printing results. However, you might be able to improve your image by changing the mode to Web or Grayscale. **Figure 4-1:** Setting the photo's mode to Grayscale. After you're satisfied with the overall look of the image, you need to make minor adjustments — or if you want to make major changes — you use Photoshop's Adjustment layer. Making adjustments with an Adjustment layer After you open an image, an Adjustment layer is automatically created. The Adjustment layer is responsible for making only the minor adjustments that your image requires to look its best. Use these steps to make an adjustment on an Adjustment layer: 1. Select the Adjustment layer's layer mask and drag it down over the layers below. 2. Open the Adjustments palette to make any desired changes. 3. Open the Brush tool and use a soft black-white brush to select the area you want to change. 4. Adjust the area with the brush or use the Eraser tool to paint over a section of the image that needs adjustment. Figure 4-2 shows an example of an Adjustment layer in action. **Figure 4-2:** An Adjustment layer

[An experimental study on interaction of polysaccharide of ganoderma lucidum with lymphocyte membrane]. The present experiment was carried out in order to observe the effect of ganoderma polysaccharides (GPS) on the interaction between lymphocyte membrane and biomembrane model (liposome membrane) and to illuminate the mechanism of immunomodulatory effect of GPS. The results showed that GPS inhibited the lipid peroxidation in biomembrane model (liposome membrane), increased cell surface antigen (CD-4, CD-9), phagocytosis, intracellular ATP in lymphocyte and enhanced its proliferation reaction in vitro. It suggested that the mechanism of immunomodulatory effect of GPS was related to the inhibition of lipid peroxidation in biomembrane model and an increase of cell surface antigen and phagocytosis. A ratchet torque wrench is a useful tool in the tight quarters of an engine compartment. It can provide accurate torque for the bolts of any engine. No tools are needed, and the wrench can be used safely without damaging the bolts. Founded in 1914, Aldwin Automotive in Fredericksburg, Virginia, is a distributor and supplier of automotive replacement parts and accessories. Offering almost 60,000 different items, the company offers a full line of automotive products from major suppliers.Petitioners have identified criteria for determining whether investigative records may be withheld as confidential business records. Specifically, they argue that records are not required to be disclosed if they are: (1) unnecessary; (2) readily available from other sources; (3) not relevant or pertinent to the criminal investigation; or (4) the disclosure of which would constitute an unwarranted invasion of personal privacy. The issues before us are whether these criteria are met. ⏹ 1 The police are charged with the protection of the public under section 3-3 (Ill. Rev. Stat. 1973, ch. 38, par. 3-3) and to enforce the laws of Illinois (People v. Shaffer (1974), 59 Ill.2d 137, 137-38, 319 N.E.2d 27, 28). They are empowered to perform their duties without interference from the public, and their duty to investigate requires them to engage in legal proceedings to enforce the laws. (Ill. Rev. Stat. 1973, ch. 38, par. 108-4.1.) A police department need not close its eyes to an illegal activity. Police records are required to be open to the public at large, and the public has a right to examine the contents thereof. (Ill. Rev. Stat. 1973, ch. 106 1/2, par. 7-2-4; People v. Hunter (1967), 86 Ill. App.2d 237, 240-41, 229 N.E.2d 159, 160-61.) The general rule requires that the business activities and records of a business concern must be disclosed to the public. (See, e.g., City of Chicago v. Cheney (1976), 37 Ill. App.3d 338, 343, 345 N.E.2d 18, 23; Department of Revenue v. Equitable Trust Co. (1931), 344 Ill. App. 19, 26, 100 N.E.2d 569, 572.) Consequently, the legislature
