I have good English skills and I know about 7 countries and many topics. I also have a local Taiwanese boyfriend. Language and Curriculum I love speaking Taiwanese and English. I also love photography. I'm willing to study those topics for a few months in exchange for free accommodation. Also I don't have any commitment for the studying period. Staying with you The starting accommodation price is about 1.3 thousand dollars (TWD). In Taiwan, you have to pay an extra cost for meals and bills. So, you can decide if you want to stay with me. If you want a longer staying period, you can extend your stay. This is all up to you. My Office I'm still looking for a place for my study office. There are many universities and a few hotels are under my consideration. If you're interested, please let me know about you and I will respond as soon as possible. Thanks! Their headquarters are located in Anchorage, Alaska. Their products include frozen, individual and premade entrees. Their menu includes entrees that are made especially for their restaurants. History In 1989, Joseph Lapida, a college graduate from Dade City, Florida, opened his first convenience store in Dade City. He sold "pre-made entrees". He was an avid partier, working double shifts at 3 AM as a bartender and another 10 or 11 hours at a bar in the evening. In May 1990, Lapida sold his first frozen meal, to his first retail customer, thinking it may be a new way to sell food, as the market was rapidly moving toward frozen meals. The meal was a success, which he found inspiring. Soon after, he began to research the frozen meal and traditional entrees markets. In 1990, Lapida sold his first frozen entrée and accepted a job offer in his then hometown of West Palm Beach, Florida. With each store's success, he began to look for corporate office space. In 1993, Lapida was able to lease a corporate office space in Boca Raton, Florida for \$125,000 per year. That office became the headquarters of Anchor Peapod Corporation. By 1998, Anchor Peapod had its first single store, selling frozen pizzas. These stores were a success, and the corporation grew. Lapida and his investors began to look for a new location for their headquarters. In
